Crossville's Commitment to the Environment

A member of the U.S. Green Building Council, Crossville, Inc. is committed to protecting the environment through our quality manufacturing processes and by offering recycled and environmentally friendly products.

Our waste-water policies exceed government standards and we have earned several citations for effective waste-water practices. Nearly 100 percent of the water used in manufacturing is recycled back into our processes; the minimal amount that is not recaptured is returned clean to its natural habitat.

Crossville's dust collection procedures not only allow us to limit air pollution, both inside and outside our plants, but allow us to reuse unfired raw scrap materials during manufacturing. While this reuse does not constitute recycling, it does minimize landfill deposits while conserving raw materials.

Recognizing that sound environmental policies reach beyond manufacturing processes and product offerings into all business operations, we have formed an Environmental Commitment Task Force comprising representatives from each of our operational units to evaluate current practices for efficiency and environmental impact and to recommend future innovations that will further establish Crossville as the environmental leader in the tile industry. This task force created and will host the first Cumberland Green Summit at Crossville Inc., in order to create awareness among local and regional industries about green best practices as well as to develop collaborative sustainable efforts throughout the region.

Recycled Content and LEED Resource Credits

20% pre-consumer recycled content with possible LEED material resource credit under MR Credit 4.1, MR Credit 4.2, MR Credit 5.1 and MR Credit 5.2.

Recommended Usage

Color Blox EC is recommended for interior floors, walls and countertops and exterior walls in both commercial and residential environments.

Care and Maintenance

Regular cleaning is the best way to keep Color Blox EC tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth to prevent water spots. No waxes or sealers are needed. More information regarding the care and maintenance of Crossville products is available at www.crossvilleinc.com.

Shade & Texture Index

Color Blox EC has a shade variation of V3.

Sizes Available (Available in all colors)

Nominal Size	Actual Size (in)	Actual Size (mm)	Thickness (in)
6" x 24"	5-3/4" x 23-3/4"	147 x 597	7/16"
12" x 12"	11-11/16" x 11-11/16"	297 x 297	7/16"
12" x 24"	11-11/16" x 23-1/2"	297 x 597	7/16"
24" x 24"	23-1/2" x 23-1/2"	597 x 597	7/16"

Modularity: All sizes within the Color Blox EC series are designed to be modular with a 3 mm grout joint.

Trim: Coordinating trim available from the Color Blox series.
This trim does not contain recycled content.

Product Performance

Breaking Strength	>450 lbs.	ASTM C648
Bond Strength	>200 psi	ASTM C482
Chemical Resistance	Unaffected	ASTM C650
Frost Resistance	Resistant	ASTM C1026
Water Absorption	< 0.10%	ASTM C373
Scratch Hardness	6	MOH's Scale
COF- Dry	> 0.8	ASTM C1028-89
COF- Wet	> 0.6	ASTM C1028-89
